Summary

Full Stack Developer with professional experience building and maintaining production software using React, Next.js, Laravel, and MySQL. Currently working at Velox Labs on Hajir, an enterprise HR platform, across areas including attendance, contracts, document generation, reports, and support workflows. Comfortable working across frontend and backend codebases, debugging real-world problems, learning unfamiliar systems, and using modern tools including AI to improve development and problem solving.

Experience

Full Stack Developer — Velox Labs Oct 2025 — Present
Hajir

- Built guided 6-step onboarding and 8-step offboarding wizards spanning Laravel APIs and the Next.js dashboard.
- Built dynamic contract and certificate templating with automated server-side PDF generation.
- Implemented in-repo Nepali (Bikram Sambat) ↔ AD date conversion for BS 2000–2090, replacing third-party date libraries.
- Maintained and extended attendance tracking, team availability matrices, shift schedules and past-date shift corrections.
- Built the PIMS employee record: list plus 15+ detail tabs, with permission gating.

Full Stack Intern — Velox Labs Jul 2025 — Oct 2025
Hajir

- Helped build employee profile and HR management interfaces in React and Next.js.
- Built and tested Laravel REST endpoints for attendance logging and availability updates.

React.js Frontend Intern — Jaruwa Nepal Pvt. Ltd. Earlier

- Developed reusable UI components with React.js and modern CSS.
- Integrated components with backend REST APIs to present dynamic data.

Skills

Frontend: React.js, Next.js (App Router), TypeScript, Tailwind CSS
Backend: PHP 8+, Laravel (Eloquent, Form Requests, Notifications), REST API design, MySQL
Documents & reporting: Server-side PDF generation, Certificate templating
DevOps & tools: Docker & Docker Compose, Git & GitHub, Postman
AI tools: Claude Code, Codex, Cursor, GitHub Copilot

Education

Bachelor of Science in Computer Science & Information Technology — Tribhuvan University affiliated college · Completed
